OBJECTIVE

Final-year Information Technology student with hands-on experience building AI-powered systems, full-stack web applications, and automation tools. Seeking full-time Software Engineer / AI Engineer roles to develop scalable, impactful products at scale.

EDUCATION

B.Tech in Information Technology, Amal Jyothi College of Engineering, KTU 2022 – Present
CGPA: 6.9

Senior Secondary (XII), CBSE, Girideepam Bethany Central School, Kottayam 2021 – 2022

Secondary (X), CBSE, St. Joseph's Co-Ed School, Bhopal 2019 – 2020

SKILLS

Technical Skills	Python, JavaScript, Java, C, FastAPI, React.js, PostgreSQL, Supabase, MySQL, OpenCV, YOLOv8, Git, Firebase, n8n
Tools & Frameworks	Figma, Roboflow, Pandas, ASP.NET Core
Soft Skills	Client Communication, Team Leadership, Rapid Learning, Problem Solving

EXPERIENCE

AI Intern Jan 2026 – Apr 2026
Fitwell Tech, Bhopal (Remote)

- Built high-quality annotated datasets using Roboflow for ML models focused on OCR and information extraction from MTR files of real clients.
- Collaborated with the data team to support real-world model deployment and improved data pipeline efficiency.

Software Developer Intern Jun 2025 – Jul 2025
United Business Group, Kuwait (Remote)

- Developed and deployed ASP.NET Core modules with role-based access control, dynamic dashboards, custom modals, and full CRUD operations.
- Delivered end-to-end features from scratch, improving internal tool usability for multiple user roles.

Data Analyst Intern Jun 2024 – Jul 2024
Fitwell Tech, Bhopal (Remote)

- Wrote code using Python + Pandas making pipelines to process raw JSON of 10,000+ lines and extracts only the usable and important lines in a specific format.
- Partnered with product teams to derive actionable insights and refine product features.

PROJECTS

SolveStack - Real-World Problem Discovery System Jun 2025 – Present
FastAPI, React.js, PostgreSQL

- Developed an AI-driven platform that scrapes and categorizes tech-solvable problems from community platforms by domain, difficulty, and required tech stack.
- Designed backend pipelines, validation workflows, and developer-facing interfaces to enable innovation scouting for students and dev teams.

HASH - AI-powered Quiz & Learning Platform

Jan 2025 – Apr 2025

FastAPI, PostgreSQL, React.js, DeepSeekAI

- Built a system that auto-generates quizzes from syllabus PDFs, provides instant grading, progress tracking, and 1-click quiz creation for teachers.
- Tested and validated generation workflows to ensure high reliability and educational value.

DefendHer - AI-powered Public Safety System

Oct 2024 – Dec 2024

Python, OpenCV, YOLOv5, Google Maps API, Firebase

- Led development of a real-time CCTV monitoring system that detects weapons and distress gestures, triggering panic alerts with live location sharing.
- Achieved Smart India Hackathon 2024 Grand Finale (Top 6 in India); validated detection accuracy under real-world conditions.

FlexiCare - Convertible Wheelchair-Bed System

Nov 2022 – Oct 2024

Mechanical Design (Low-cost, Manual)

- Designed and prototyped a convertible wheelchair-to-bed system for home care, focusing on affordability and ease of use.
- Won Young Innovators Program (YIP) 5.0 State Award (Kerala Top 37).

AWARDS & LEADERSHIP

- **Smart India Hackathon 2024** – Grand Finale Finalist (Top 6 nationally)
- **Young Innovators Program (YIP) 5.0** – State Winner (Kerala)
- **Hack For Impact (AKIASSC Hackathon)** – 2nd Runner Up
- Led Figma UI/UX Workshop for IEEE WIE AG AJCE
- Conducted Prompt Engineering and AI Tech sessions for college associations

CERTIFICATIONS

Python - Pandas Advanced Features (Skillsoft) Prompt Engineering Masterclass (Udemy) UI/UX Design (Internshala)
